

# SMARTER CARE BETTER HEALTH

Annual Conference of the  
Medical Technology Supply Industry  
**7th March 2012**

# Welcome to IMSTA's 2012 Annual Conference

The theme for this year's event is  
**better utilisation of resources**

With reduced funding and the requirement to treat more patients it is essential that government begins to understand that **medical technology is an enabler** to address overburden and shortage of healthcare workers by optimising resource allocation, healthcare delivery and health outcomes.

Medical technology innovation goes more and more beyond pure product innovation and includes services and process innovation that **positively affects patient pathways and hospital economics**.

The conference is also open to non-members and stakeholders and your participation would be most welcome. We hope you can join us. Register on-line at [www.imsta.ie](http://www.imsta.ie)

## Speaker Profiles

Joe Aherne	CEO and owner of the Leading Edge Group of companies
Miles Ayling	Director of Service Design (Commissioning and System Management Directorate), Department of Health in the UK
